During its meeting on January 22, 2016, the Campus Environment sub-committee reviewed feedback from the previous brainstorming session related to the topic of Inclusive.

The sub-committee met in Curtiss Hall, 0142 from 2:00pm – 4:00pm.

After a review of the shared understanding of the sub-committee charge, and the strategic goals and accompanying action items from the January 6th meeting, members were asked to prioritize the information that was received related to an “inclusive campus environment”. For the most part, sub-committee members were comfortable with the drafted strategic priorities that would move ISU toward a safe, welcoming and inclusive environment.

One item of particular note, during the meeting, there was an important discussion about the inclusivity of the sub-committee meetings. There was some concern about whether or not the larger community were aware of the meeting schedules of the sub-committees and there were thoughts that if the campus environment sub-committee was discussing inclusivity is the sub-committee in fact practicing this notion.

It was agreed that the sub-committee’s February 5th meeting would be an opportunity to have a draft document for the sub-committee to review just prior to our February 26th deadline. It was also articulated that there should be a mechanism in place to ensure that interested stakeholders were aware that the meeting was “open” and if persons wanted to attend, they were welcome to come, learn about the sub-committee’s work to date and offer input.

Following the discussion, there was a brief notation about the next meeting dates and the meeting was adjourned.
